Subject: Re: confirming speakers for EPA/WESTAR modeling workshop May 13 in Boulder

Hi Gail,

I will be attending and presenting, and I just registered.

It's not essential to change the agenda, but the specific title of my paper is:

"Thunderstorm-mediated stratospheric intrusion of ozone at surface sites along Colorado's Front Range"

Pat

Hi All,

I attached a final draft agenda for the EPA/WESTAR modeling work shop and wanted to confirm that you will be presenting on Wednesday, May 13. Also, if you have not already registered, please see the HTAP link below.

We are very much looking forward to your participation at the 2015 Western Air Quality Modeling Workshop, being held May 13-15 in Boulder, Colorado at NCAR Center Green as part of the "Modeling Air Quality from Global to Local Scale" meeting. This email is a final confirmation of your inclusion as a speaker on the final agenda. Speaking time slots include 5 minutes of question and answer, so please plan to leave time for discussion. When you arrive at the meeting please contact one of the meeting organizers to upload your presentation to the main laptop being used for the meeting. Presenters are encouraged to clearly state the purpose of the work being presented and where possible highlight evaluation of the modeling or methodology being described.

An agenda and logistics information are available through both the WRAP and HTAP websites (under "Modeling Air Quality from Global to Local Scale").

Registration for the workshop (including speakers) must be done through the HTAP website below.
<http://www.htap.org/>

The WRAP website below also includes logistics information (and hotel block details) for this workshop.
<http://www.wrapair2.org/events.aspx>

Please feel free to contact any of the meeting organizers with questions about the meeting, logistics, or more detailed questions regarding relevant presentation content. If have not already, **please register for the workshop through the HTAP website.**

We look forward to your presentation in Boulder!

Thank,
Gail
